

Tractor pull updates and events for the 2024 season:

As we look forward to the 2024 pulling season at NHPA we would like to highlight a couple of updates for the tractor pull events. The suggestion has been made and the folks have been heard. We will be starting the pull 1 hour earlier at 11am. This is in effort to create a short 20-30min break in the middle of the event for volunteers to refresh and switch out along with to try and wrap up the event a bit earlier. Hook fees have been adjusted to \$25 per tractor/per weight class. Outside of those updates, the rules and pull orders as you have traditionally seen will remain the same for the 2024 year and are posted on the website under the tractor pull link.

We are always looking for additional volunteers with the tractor pull events. Currently we have several folks who have signed up or have reached out to volunteer filling about half of the staff required for the event. If you have the time and want to be involved, please reach out to George Young @ 763-334-1986 to learn about what we need help with or to discuss where you'd like to help.

Pulling event schedule for the 2024 season:

Cancelled! **Spring** ~~June 15th, Weigh in starts at 9am with the event starting at 11am.~~ **Cancelled!**
